

Testimonials

EIP's success is grounded in our belief that maintaining strong relationships enhances our ability to provide stellar property and tenant management services, and to source deals that fulfill current and future client needs. Our major tenants have included: Home Depot, Penn Traffic, Regency Transportation, Tyco International, Lego, Staples, Kraft Foods, Jabil, Coca-Cola and Dial, some of whom have shared their experiences with us below:

We have completed millions of square feet of transactions across the country with EIP over the years. During my tenure at Toys R Us and Home Depot, I have never met more responsive, diligent and cooperative landlords. Together, we have completed the sale/leasebacks on 800,000 SF of facilities, and Home Depot is currently leasing 1.5 million SF of EIP properties.

A.C. Boschen, Director of Industrial Real Estate

As we celebrate our 5th year anniversary on leasing 350,000 SF at your 9649 West Wingfoot Facility, I wanted to let you know that EIP is the best landlord I have ever dealt with. When we deal with any situation, good or bad, your company runs to correct the problem, no matter how difficult. Whenever we need more space, we always come to you first.

Ben Reynolds, President

With the help of EIP, our company has been able to successfully expand and develop. EIP has been very dedicated to helping us find the perfect locations for Staples. Their people are knowledgeable and their resources are far-reaching -- we definitely recommend other companies to use their property and tenant management services

With a company as large and diverse as Kraft, it's important to have a commercial real estate company that you can depend on. EIP provides the facilities we want to the standards we need, such as our brand new 370,000 SF distribution center.

We've worked with EIP in eight different states and on thousands of square feet of space. Toys R Us has a very strong relationship with EIP, and relies on them to meet our significant industrial real estate needs. On the last project we worked together, EIP helped us to successfully consolidate our distribution operations into two buildings. We continue to benefit from EIP's stellar work, expertise and client-dedication.
